

# Miracleclean

Removes stubborn dirt and marks with no need for chemicals.

## The No. 1 trouble shooter.

Miracleclean is a problem-solver, a trouble-shooter and the product to use for removing tough marks, annoying stains and ground-in dirt.

## Cleaning efficacy

Lab tests show that a microfibre cloth needs up to 26 times more wiping cycles to remove marks, compared to Miracleclean. And as Miracleclean will do the job faster and with less effort, you save time and money.

Another advantage is that Miracleclean runs on water only, which has two positive aspects. You lower the overall costs for cleaning, and you eliminate the spraying of chemicals in the premises.

It's not a cloth, it's not a scourer, it's not a sponge. It's Miracleclean, and it takes away tough marks like a miracle.

## Usage

Miracleclean is a problem-solver, a trouble-shooter and the product to use for removing tough marks, annoying stains and ground-in dirt. It's not a cloth, it's not a scourer, it's not a sponge.

It's Miracleclean, and it takes away tough marks like a miracle.
