Carpet Cleaner

Code: RCXX

Safeblend Carpet Cleaner is specially formulated to safely clean and deodorize carpets using extraction or bonnet cleaning. Excellent for pre-treating stains or high traffic areas before cleaning. It is low foaming and has a pleasant floral fragrance.

DIRECTIONS FOR USE:

Preparation: Test for colourfastness in an inconspicuous area before use. Vacuum carpet thoroughly. Pre-treat any spots or stains with Safeblend Oxy-Blend Carpet Stain Remover and pre-spray traffic lanes or other highly soiled areas with Safeblend Carpet Cleaner 1:32 or 30 mL per litre of water allowing a dwell time of 10 minutes prior to extraction cleaning. If required, add Resistol Defoamer in extraction machine, 30-60 mL in recovery tank.

Application: For best results add 30 mL per litre of water (1:32) to extraction machine. Starting at the far end of the room, extract by overlapping strokes and making passes slowly. Bonnet cleaning - immersion method: For best results, dilute 1:16 (60 mL/L). Immerse bonnet in diluted solution. Wring as dry as possible. Buff area with a 175-300 rpm floor machine from left to right, overlapping each pass. Vacuum carpet when dry.

NOTE: In order to conserve energy, please use unheated tap water for all dilutions. Turn bonnet pad over as the pad becomes soiled. Rinse dirty bonnet in clean water.
STORAGE: Keep in a tightly sealed container in a well-ventilated room. Do not store on surfaces that may come into contact with food products. Keep from freezing.
